## Footprints

## Ideas

## What's your better banner stand?

The Solo Banner Stand is an ultra-compact display tool. It can be used singularly or connected with additional Solos to form larger wall displays. It comes in several models to serve different presentational needs. Thin, wide, single or double sided, or even elevated from the floor—the permutations and configurations are literally unlimited. The unique polarised magnetic end caps, permanently fixed to the top and bottom profiles, allow the graphics between several Solo displays to fit together with optimal precision.

## Why choose a Solo

- Use at malls, stores, conferences etc
- Three base designs
- Lightweight for easy carrying
- Quick and easy graphic exchange
- Adjustable banner height, 88 cm–225cm
- Two standard widths 60 cm and 82 cm
- Magnetic end caps allow Solo stands to be connected together
